Statement of complaint

Mark Zuckerberg's Social Media corporation META Formerly FaceBook did interfere with the campaign messages, support building and information sharing condoned or condemned by Joshua A Monighan, this premeditated Censorship eliminating debate, dissent, protest, outrage, mis conduct, prevented accountability, Organization or efforts and Multiple campaign messages competitive to John Fetterman were suppressed. Censorship of Kathy Barnette and censorship of Dough Mastriano facts were probative to Monighans Platform, and Joshua A Monighan's dissenting opinions or agreements with the front line candidates on a public stage of interested people were curtailed by several methods.

- 1) Face BOOK Limited or restricted new Friend contacts.
- 2) The censored Groups Algorithm are to be restored to (Like Unite states space force a new user account) to allow future public access to uncensored facts to allow the public to be knowledgeable of the proposed SEERES 25 phase of agenda 21 agenda 2030.

Monighan campaign was to develop governance safety legislation I believe any Candidate would sign. This would have gained support of the united states voter for Monighan, however in turn I have had a battle with hurtles of censorship by documentation and bona fidelis and anti authoritative Censorship by Face Book documenting first amendment interference, interfered with personal feet on the ground effort, Perhaps when Facebook act fair with the first amendment , I will be able to on door to with technology available to me.

- 3) With out Facebook prohibition of free flow of and dissemination of facts and potential facts may have save Lives and reduce Medical related injuries due to lack of testing and long term effects that was to be Evaluated before administering and thus fact were censored by META/ FACEBOOK.term safety study's by uncensored concerns with the Paramedical practices.

- 4) Without the de censorship of Shutdown Agenda 21, Kraken, Man Made climate Change and Space force, Young Earth, Sovereign stop citizen, Lockdown Agenda 21, Shutdown agenda 2030 people are being Keep in the dark from potential dangers, and lives are being lost under this current censorship directives due to lack of information propagation on Facebook .
- 5) Censorship caused lives to be lost by preventing the knowledge of agenda 21 and were forced by censorship to follow agenda 21 resulting in many cases of sudden adult death syndrome Maximizing the "WEF guide stone" Wuhan Lab leak theory effects as planned.
- 6) It is believed the current presidential administration through the CiA and FBI and other government agency's did direct regulate and curtail the censorship to be Implemented by Mark Zuckebureg's FACEBOOK, META. For the benefit of Chines Ukraine alliance found throughout the united nations WEF and nato under CFR sanctions.
- 7) Zoetis animal MRNA Campaign is allowed to continue by the United States Justice System after a final order over this Petition Wild life and Fram animals will be modify from herbivores to Carnivores by the zoetis program, this could have a profound effect on the food chain that may never be reversed as over 100k animals have already been given mrna modifiers. This topic was censored on the facebook platform.
- 8) I ask an order be made directing Meta to enable the content to each removed post and the Library of Congress preserve the "Kraken Group" shut down agenda 21 , man made climate change and Young Earth as an official archive of election related real time facts for the future to review and scrutinize free of face book fact check influences.
- 9) the data stream of Kraken group and Shutdown agenda 21 be preserved in the Library of Congress.
- 10) Other like Joe Rogan and Russel brand were allow to post, but I am not allowed to post Chris Neson question to Ron Desantis Before the Fox News releases their interview of Ron Desiantis.

Relief sought

I seek declaration and injunctive relief and Discovery disclosure 1000 times or more the actual numbers of deviations from standard algorithm actions during the response to the wuhan lab leak theory hunter Lap top and 2020 election irregularities for the entire platform be disclosed.

The unadulterated feed of KRAKEN group, Shutdown Agenda 21 group, Young Earth group. Authoritative information group, Man Made Climate Change Group, Lock down agenda 2030, Lockdown agenda 21, Sovereign stop citizen and all censored or anti authoritative information be restored that was tampered with and should contain a conspicuous label to exposing the censored material and submitted to the Library of Congress, and under discovery.

Future censorship of Joshua A Monighan Groups or page or feed Josh Monighan should be Prohibited.

Declaration

FaceBook did by its own accord or by the direction on the UNITED STATES OF AMERICA direction did severely limit the propagation of Joshua A Monighan On its Social media Platform adversely effecting the state wide campaign of Joshua A Monighan, and others such as Kathy Barnett and Doug Mastriano in the 2022 election cycle.

Hatch act applys, the THE OFFICE OF THE PRESIDENT failed to disclose a Billion dollars of In kind contributions to the John Fetterman Campaign in Pennsylvania In excess of \$350,000,000.00 by the Censorship stated above intervening in Joshua A Monighan FACEBOOK account.

Injunction

The full effect of the unadulterated algorithm is to be equally applied across the FACEBOOK social media platform [facebook.com](https://www.facebook.com) to allow the standard propagation of the Josh Monighan account and all users on the social media platform FACEBOOK.

Allow the old chap to have a few friends interested in the constitution..

Alternate relief SB604

Number of 953 days x \$100,000.00 = \$95,300,000 or more damages is reasonable . See act anti social ccp act. Pa senate bill 604 an act providing for stoping social media censorship. Big tech anti censor ship legislation. This compensation must be rendered to inform the defendants of the severity of their acts and to help the defendants remember to not force automotive information on the population of the united states.

Verification of Campaign Interference

I Joshua A Monighan hereby affirm against Penalty of Perjury, I have read the above complaint and the facts set forth with its the case are accurate to the best of my Knowledge understanding and experiences. I did attempt to Run or Unites states Senator as an independent candidate in 2018 as part of the Independent Pennsylvanians by a third party nomination petition. 3500 signatures fell short or the requirements and an extension of time due to in climate weather, denied by Tom Wolf. Despite 160% of the highest ever recorded rain fall has precipitated during the period. I was also a minority united states senate candidate in the 2022 election , the interference I experienced were of Tom Wolf meddling in redistricting and remapping, creating a 30 day extension for circulation papers d and R , and give a second circulation period for resigning. This removed 30 days of campaign form the d and R challenges . This also cut into the nomination period for third party's in 2020. These factor were prohibited to be transmitted to the public as fb meta censorship blocking post prohibits the content from being uploaded during time of hard restrictions . My face book page is the only social media pages I use or have used. Each time I was blocked by a form of censorship my United states Senate campaign was stopped by Meta censorship. In other word by campaign was managed by Meta with out my direction. Other I spoke with were not ever able find me in there face book search bar. This is discrimination by meta . Others have had ~~there~~ opportunity to speak freely by I was give special treatment by Facebook/ Meta to prevent my free speech. The People of Pennsylvania Could have had an intelligible senator if its was not for Facebook Censorship, maybe next time?
